

50 YEARS OF INNOVATION ZERO COST INVESTMENT HIGH DEMAND PRODUCT

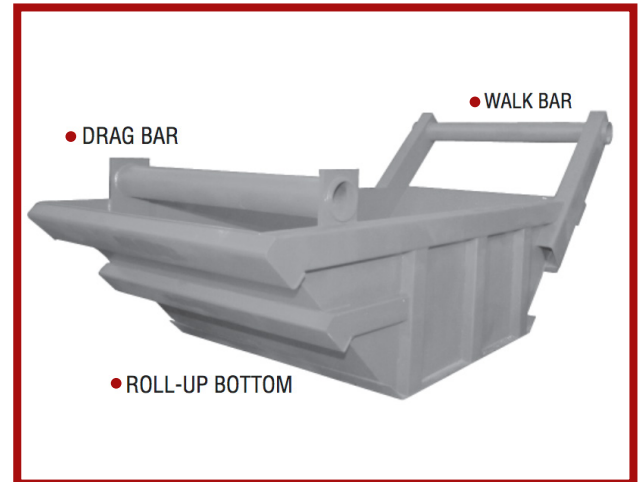

BEDDING

Walk Bar: The Walk Bar is standard on the basic stone box, and is solid welded creating an extra strong box.

Drag Bar: The Drag Bar is also standard on the basic stone box. It is welded to two heavy plates and inset from the front of the box. This helps strengthen the box and hold the sides in place.

Roll-up Bottom: The ends of the base are rolled up allowing for easy box movement.
