

# VANGUARD

## Steel Trench Box

### Specialty Trench Boxes | Titan Series

Painless solution for your heavy-duty problems. The Titan Vanguard is an all-steel drive panel system that is designed for heavy duty trenching. Made up of 24" wide interlocking vertical panels, you can effortlessly loosen and slide each panel to move around any obstruction or pipe as you lower your box into the trench. We make it easy for you to get in, get out, and get the job done.
